Are you considering designating China in your International Registration?
Have you already done so and received a provisional refusal?

In this webinar, fellows from the China National Intellectual Property Administration (CNIPA) Trademark Office will review the examination process in the Chinese Office and the most common reasons for provisional refusals and present the specific requests you need to fulfill when designating China in your international application or subsequent designation.

You will be able to ask all your questions to our Madrid System specialist during the live Q&A session after the presentation.

This interactive presentation is for all current and prospective users of the Madrid System.

This webinar will be held in English and presented by prior worker of the CNIPA.
